Introduction

Benchmark Wealth Advisors LLC is a state registered investment adviser in California under the Investment Advisers Act of 1940(Advisers Act).

Our firm has a strong reputation based on the professionalism and high standards of the firm and our employees. The firm's reputation and our advisory client relationships are the firm's most important assets.

As a registered adviser, and as a fiduciary to our advisory clients, our firm has a duty of loyalty and to always act in utmost good faith, place our clients' interests first and foremost and to make full and fair disclosure of all material facts and in particular, information as to any potential and/or actual conflicts of interests.

As a CA registered adviser, Benchmark Wealth Advisors LLC and our employees are also subject to various requirements under the Advisers Act and rules adopted under the Advisers Act and our Policy and Procedures / Code of Ethics manual. These requirements include various anti-fraud provisions, which make it unlawful for advisers to engage in any activities which may be fraudulent, deceptive or manipulative.

These antifraud provisions include the SEC Compliance Programs of Investment Companies and Investment Advisers (Compliance Programs Rule) (SEC Rule 206 (4)-7) which requires advisers to adopt a formal compliance program designed to prevent, detect and correct any actual or potential violations by the adviser or its supervised persons of the Advisers Act, and other federal securities laws and rules adopted under the Advisers Act.

Elements of Benchmark Wealth Advisors LLC's compliance program include the designation of a Chief Compliance Officer, adoption and annual reviews of these IA Compliance Policies and Procedures, training, and recordkeeping, among other things.

Our IA Policies and Procedures cover Benchmark Wealth Advisors LLC and each officer, member, or partner, as the case may be, and all employees who are subject to Atlas Capital Advisors LLC's supervision and control (Supervised Persons).

Our IA Policies and Procedures are designed to meet the requirements of the SEC IA Compliance Programs Rule and to assist the firm and our Supervised Persons in preventing, detecting and correcting violations of law, rules and our policies.

Our IA Policies and Procedures cover many areas of the firm's businesses and compliance requirements. Each section provides the firm's policy on the topic and provides our firm's procedures to insure that the particular policy is followed. Benchmark Wealth Advisors LLC has opted to include the provisions normally included in a 'Code of Ethics' into its Policies and Procedures as many areas of this document were deemed redundant.

Benchmark Wealth Advisors LLC's Chief Compliance Officer is responsible for administering our IA Policies and Procedures.

Compliance with the firm's IA Policies and Procedures is a requirement and a high priority for the firm and each person. Failure to abide by our policies may expose you and/or the firm to significant consequences which may include disciplinary action, termination, regulatory sanctions, potential monetary sanctions and/or civil and criminal penalties.

The Chief Compliance Officer will assist with any questions about Benchmark Wealth Advisors LLC's IA Policies and Procedures, or any related matters. Further, in the event any employee becomes aware of, or suspects, any activity that is questionable, or a violation, or possible violation of law, rules or the firm's policies and procedure, the Chief Compliance Officer is to be notified immediately.

Our IA Policies and Procedures will be updated on a periodic basis to be current with our business practices and regulatory requirements.

We will not accept any client that carries a high risk of involvement with any of the above activities without first conducting the due diligence requires establishing that the prospective client is not precluded by this policy.

Further, the Firm prohibits the use of any of its facilities (including its offices, computer systems, or assets) by its officers, owners, employees or affiliated persons for any illicit or illegal activities.

Any Firm employee that detects any suspicious activity is required to immediately report such activity to the Chief Compliance Officer without discussing the activity or the report of the activity with the client or other implicated person involved in the activity.

Procedures

Verification of Client Identity

The Firm requires documentary evidence of each individual client's name, current address and phone number and date of birth. Documentary evidence may include a legible photocopy of a valid drivers' license, a valid passport or other unexpired government-issued identification. For identity documentation issued by a foreign government, additional documentary verification of current address and other contact information is required.

Client Identity Also Verified by Client Custodian

Because the Firm does not custody client assets, all Firm clients are required to establish custodial accounts with an independent broker-dealer. Broker-dealers also are required by federal law and regulation to adopt extensive anti-money laundering policies and procedures. As a part of their anti money laundering programs, broker-dealers must verify the identity of each customer of the brokerage firm, determine whether each customer has been identified by the U. S. Department of Treasury (or other government entity) to be involved in terrorism, drug trafficking or organized crime and to monitor customer accounts for suspicious activity.

Suspicious Activity Reporting

The Chief Compliance Officer will file a suspicious activity report (FinCen Form 101: SAR-SF) under the following circumstances:

If the name of each prospective client screened through the U. S. Office of Foreign Asset Control ("OFAC") appears on the List of Specially Designated Nationals and Blocked Persons. The List is made available through the U.S. Department of the Treasury on its web site <http://www.treasury.gov/resource-center/sanctions/SDN-List/Pages/default..>

If the Firm, in connection with its advisory services, identifies any activity on the part of a Firm client with persons or entities that appear on any government list of restricted persons, and upon further investigation into the matter, it is determined that suspicious activity may have occurred.

If the Firm detects, or reasonably suspects, a federal criminal violation or attempted violation by one of the Firm's clients, officers or employees or any other suspect using the Firm's services or facilities.

The Firm detects or suspects that its computer systems have been accessed by persons or entities to remove, steal, procure or otherwise affect the Firm's client or own accounts or other critical information or to damage or disable the Firm's computer systems and databases.

It is unlikely that the Firm will be called upon to report client currency transactions under applicable currency transaction reporting regulations. The Firm custodies no client assets and accepts no client funds or securities. Nevertheless, if a currency transaction of \$10,000 or more (deposit, withdrawal, exchange of currency or other payment or transfer through the firm), is mistakenly accepted, the Chief Compliance Officer must immediately be notified and will return the currency to its source. If warranted, the Chief Compliance Officer may determine to file a Currency Transaction Report (CTR). Records of reports filed must be kept for a minimum of five years.

CMIR forms and instructions for filing are available on the FINRA web site <http://www.finra.org/Industry/Issues/AML/>. Records of reports filed must be kept for a minimum of five years.

Best Execution

Federal law requires Benchmark WealthAdvisors LLC to deal fairly and honestly with and on behalf of its clients. While the Firm is not required to obtain the lowest available commission rate for executing a given trade, it is our fiduciary obligation to use our "best efforts" to obtain a reasonable commission rate in relation to the quality of the execution and the value of brokerage services received from the executing broker*. Therefore, the Firm has adopted standards with respect to executing broker selection.

It is Firm policy for the Investment Committee to assess a new broker-dealer relationship using some or all of the following performance factors:

- execution capability;
- research capability;
- block trading coverage for a particular security;
- commission and pricing structure;
- effective communication
- responsive personnel;
- ability to position trades (for example: the trading of oddlots) distribution and underwriting capabilities;
- use of electronic efficiencies;
- ability to execute and settle trades efficiently;
- mutual funds offered at minimal transaction costs;
- client custodial relationships;
- client reporting and convenience;
- financial stability; and
- general reputation.

No relationship may be initiated with a broker-dealer that is:

- suffering business continuation difficulties that have been publicly reported upon;
- a party to litigation or the subject of government investigation that in the opinion of the Chief Compliance Officer, impacts its ability to perform.

Existing Broker-Dealer Relationships

It is Benchmark Wealth Advisors LLC policy for the Investment Committee to evaluate existing broker-dealer relationships and advisor platforms at least annually, using the assessment factors itemized above. The Investment Committee use the Broker-Dealer/ Best Execution Evaluation Checklist included with these procedures. If an existing broker receives a poor evaluation, the Firm will discontinue its relationship with that broker. In addition, a broker relationship will be terminated if it comes to the attention of the Chief Compliance Officer that it is:

- suffering business continuation difficulties that have been publicly reported upon;
- or a party to litigation or the subject of government investigation that in the opinion of the Chief Compliance Officer, impacts its ability to perform.

Procedures

Evaluating a Contemplated Trade –Trade Execution Guidelines

In selecting a broker-dealer for execution of a particular contemplated transaction, portfolio managers should consider the following factors:

- the type of security
- commission and pricing
- if an OTC trade, when the executing broker is acting as agent or principal
- whether it is a new issue
- the size of the contemplated trade
- the security's liquidity and availability
- whether the broker-dealer is an underwriter of the security or follows the security
- the then prevailing market conditions for the security and the market as a whole
- the other costs associated with executing the trade (such as transaction fees and settlement fees)
- the communication skills of the broker-dealer representative assigned to our Firm

Employee Training

The Chief Compliance Officer is responsible for training all existing and new trade staff regarding the Firm's best execution procedures.

Therefore, it is important that Form ADV Part 2 be kept current at all times. Form ADV Part 2 is filed electronically on IARD. The Firm must provide a copy of Part 2 to each new client and must offer to provide a current Part 2 to all existing clients at least annually. Additionally, the firm must ensure that if Form ADV Part 2 is available via its website, www.benchmarkadvisor.com, that the document be up to date and current.

Any changes to the Firm's electronic entitlements must be made through the filing of an amended IARD Entitlement Form. This Form is also used to entitle additional users.

Annual Amendment and the Daily Account

The Firm is obligated to file a Form ADV Part 1 Annual Update within 90 days of the end of its fiscal year. As the Firm's fiscal year end is December, the annual update is due by the end of March of the following year. The Firm updates its Form ADV Part 1 electronically on the IARD system.

The Firm must have sufficient funds in its IARD Daily Account in order to process its annual amendment. The fee for the annual update is based on the assets under management shown on the previous year's amendment. IARD will not send a bill or notice of the fees due. Log on to www.iard.com and link to "Fees and Accounting" to determine the fee due. The fee should be applied to the Firm's "Daily Account" A check may be sent via overnight mail or U.S. post to the addresses shown on the IARD site. Additionally, online payment capabilities can be set up through the IARD site.

After sending in the payment, determine whether the fees have been deposited to the Firm account by logging on to IARD and from "Fees and Accounting" on the main menu select "Daily Account Information." The Chief Compliance Officer shall check every 3 months to ensure that proper balances are maintained.

Once the funds have been deposited the annual update may be filed. Once logged on to the FINRA site (www.firms.finra.org), navigate to the IARD tab (https://crd.finra.org/lad/Content/ladMain/crd_iad_ladSiteMap.aspx) Select "New Filing" under "Forms – ADV". Make and submit all necessary changes in the information stated on each page of the Form ADV Part 1

State Notice Filing and the Renewal Account

In order to avoid having federally registered investment advisors register with the individual states in which their clients reside, the IARD system allows advisors to "Notice File" with each state where an advisor has more than an exempted minimum of clients by paying an annual notice filing fee to the applicable state through IARD. The notice and the fee are then transmitted to each designated state and the advisor's Form ADV Part 1 is made available to the state regulators through IARD.

Benchmark Wealth Advisors LLC maintains client accounts for clients who live outside of California. As the Firm acquires additional clients who live in other states, it is required to track these clients and, if exceeding the individual state's exemption requirement (known as the "de minimus" exemption - each state sets its own de minimus exemption level but generally, it

is at least five clients in the state), notice will be filed in those states by amending Form ADV Part 1 and paying annual state notice filing fees through the Firm's IARD Renewal Account. Some states do not provide a de minimus exemption and the Firm will have to file notice on acquiring even one client in the state. The notice filing must be made immediately upon exceeding the exemption or in cases where a state does not provide an exemption, upon the acquisition of the first client in that state.

In order to determine the de minimus exemption for each state, log on to www.nasaa.org and on the left hand column, click on "Contact your Regulator". The site provides a list of the securities regulation department for each of the fifty states and you can call the regulator for the state in question and ask for their de minimus rule.

Note: On a quarterly basis, the Firm should review its list of client accounts to determine if a notice filing should be made.

Other than Annual Amendments to Form ADV Part 1

In addition to the annual amendment, SEC Rule 204-1 requires the Firm to update its Form ADV Part 1 promptly if there are changes to the information provided in the following items of the form:

Item 1: Identifying Information and Contact Employee
Item 3: Form of Firm Organization
Item 4: Successions
Item 8: Participation in Client Transactions
Item 9: Custody
Item 10: Control Persons
Item 11: Disclosures

There is no fee for other than an annual amendment. Any of the following changes require an amendment filing within 30 days:

Form ADV Part 2

Part 2 of the Form ADV is the Firm's primary client disclosure document and must be distributed to all new clients at the time they enter into an investment advisory agreement with the Firm. In addition, the Firm is required to make an offer to all of its existing clients at least annually to provide a current Form ADV Part 2 on request. Part 2A is considered the Firm's "brochure" and must contain all required disclosures to clients. Part 2B contains brochure supplements for clients on all Investment Adviser personnel that provide investment advice and/or maintain contact with a client.

State-Required Registration of Investment Advisor Representatives

Although the SEC does not require the registration of individual investment advisor employees, the state of California requires registration of each employee that qualifies as an investment advisor representative

Registration of investment advisor representatives is done via the filing of a Form U-4. The individual Form U-4 records of registered investment advisor representatives are maintained electronically on WebCRD. The FINRA web site maintains a link for U4 filings (<https://firms.finra.org/apps/mi/micommon/fgpage/registrations>)

Registration Requirement

Definition of Investment Advisor Representative

California requires registration of the following employees:

"Investment advisor representative" is defined in Corporations Code Section 25009.5(b) as any person defined as an investment advisor representative by Rule 203A-3 of the Securities and Exchange Commission and who has a place of business in California. [An investment advisor representative is defined in Rule 203A-3 as a supervised person of the investment advisor who has more than five clients who are natural persons (other than qualified clients) and more than ten percent of whose clients are natural persons (other than qualified clients).]

A supervised person is not an investment advisor representative if the supervised person does not on a regular basis solicit, meet with, or otherwise communicate with clients of the investment advisor or provides only impersonal investment advice.

For purposes of the above definition, a qualified client is an individual or couple that:

- Has \$750,000 under management with the advisor; or
- The advisor reasonably believes has a net worth of at least \$1.5 million; or
- Has a total of least \$5 million of investments.

Grandfather Provision

California regulations exempt from the registration requirement any investment advisor representative who has been actively and continuously engaged in the securities business as a broker-dealer, an agent of a broker-dealer, an investment advisor, or an investment advisor representative without substantial interruption (two or more years) since passing the:

- Series 2 Examination (SEC/FINRA Nonmember General Securities Examination) or Series 7 examination before January 1, 1998, or
- Series 65 Examination or Series 66 Examination before January 1, 2000 and the Series 7 Examination

Required Qualifications

Unless otherwise exempted from the examination requirement, registered investment advisor representatives must have successfully passed the Series 65 exam or both the Series 7 and Series 66 exams.

Exam Exemption for Professional Designations

Although still required to register and file a Form U-4, the following investment advisor representatives are exempted from taking the Series 65 exam:

- Chartered Financial Analyst (“CFA”)
- Chartered Financial Consultant (“ChFC”)
- Certified Financial Planner (“CFP”)
- Chartered Investment Counselor (“CIC”)
- Personal Financial Specialist (“PFS”)

Newly Hired Investment Advisor Representatives

Any time a new employee is hired, the Chief Compliance Officer will determine if that person is required to register as an investment advisor representative.

Upon hiring a new employee that is required to register as an investment advisor representative, the Managing Partner:

Employees with Existing Form U-4 Registration

- Transitions the employee’s existing Form U-4 noting Firm as the new employer, making other changes as necessary and requesting state jurisdiction registration as applicable
- Files a copy of the employee’s U-4 in the employee’s personnel file
- Prints-out a copy of employee’s exams and files it in the employee’s personnel file
- Subsequently monitors WebCRD to ensure registration follow-through

If the password expires before updating online, the Chief Compliance Officer will have to contact FINRA by telephone (telephone number at (301) 590-6500 to reactivate the Firm's use of IARD.

Edgar Filing Under SEC Rule 13

Form 13F –Reports by Institutional Investment Managers

Form 13F must be filed when the Firm's discretionary account holdings of specified Section 13(f) equity securities have an aggregate fair market value on the last trading day of any month of any calendar year of at least \$100,000,000.

The Firm must file its first Form 13F for the December quarter of the calendar year during which it first reaches the \$100 million filing threshold. The initial Form 13F must be filed within 45 days after the last day of the calendar year. Subsequent filings must be submitted within 45 days after the last day of each of the first three calendar quarters of the subsequent calendar year (March, June and September), even if the market value of the Section 13(f) securities holdings falls below the \$100 million level.

Detailed filing instructions are found on the SEC's Division of Investment Management webpage (<http://www.sec.gov/about/forms/secforms.htm>) under the heading "Form 13F," including instruction regarding the filing of forms on the EDGAR database. Once the Firm sets up its initial Form 13F filing, subsequent filings are a simple matter of updating the initial filing. Information for filing an initial Form 13F and quarterly amendments on the EDGAR system may be found on the above webpage under the heading "Form 13F."

Form 13F filings must include:

- the name of the issuer and the title, class, and CUSIP number of the security;
- the number of shares or principal amount of the security involved in the transaction;
- whether the transaction was a purchase or sale;
- the per share price or prices at which the transaction was effected;
- the date or dates of the transaction;
- the date or dates of the settlement of the transaction;
- the broker or dealer through whom the transaction was effected;
- the market or markets in which the transaction was effected; and
- such other related information as the Commission, by rule, may prescribe.

Qualifying Exchange 13(f) Securities Defined

Section 13(f) securities are equity securities of a class described in Section 13(d)(1) of the Securities Exchange Act. Generally, the list includes exchange-traded (e.g., NYSE, AMEX) or

NASDAQ-quoted stocks, equity options and warrants, shares of closed-end investment companies, and certain convertible debt securities.

From the SEC's Division of Investment Management webpage (<http://www.sec.gov/divisions/investment.shtml>) under the heading "Form 13F," there is a link to the current Official List of Section 13(f) Securities (<http://www.sec.gov/divisions/investment/13flists.htm>). It is updated at the end of each calendar quarter.

Shares of open-end investment companies, i.e., mutual funds, are not included and, therefore, should not be listed on Form 13F. Shares of exchange-traded funds ("ETFs"), however, are on the Official List and should be reported.

Securities that are not on the Official List should not be reported on Form 13F.

Forms 13D and 13G -Reports of Holders of 5% or More Beneficial Ownership of Qualifying Equity Securities.

Form 13D must be filed if the Firm, an employee or a client acquires beneficial ownership of more than 5% of a class of publicly-traded equity securities of a single issuer. [Check the Official List of 13F Securities to determine if 13D filing required.] Form 13D identifies, among other things, background information about the person or entity acquiring the interest, information about past legal or disciplinary proceedings, the aggregate amount of shares beneficially owned, the percent of class represented, the source and amount of funds and the purpose of the transaction. Form 13D presumes the intent of the holding is to influence or change control of the issuer.

Form 13G is an alternative Form to Form 13D that may be used if the Firm, employee or a client acquires a greater than 5% (but not over 20%) beneficial owner of shares that are acquired as a "passive investor," in the ordinary course of business and not for the purpose of changing or influencing control of the issuer. Form 13G requires disclosure of the identity of the reporting persons, the aggregate amount of shares beneficially owned and the percent of class represented.

Advisor must file a Form 13D if, subsequent to filing a Form 13G, it holds or acquires securities with the purpose or effect of changing or influencing control of the issuer or acquires more than a 20% interest in the security.

Form 13D must be filed within 10 days of acquiring greater than 5% beneficial ownership. Amendments for material changes to the information must be filed promptly, as soon as possible. Amendments for a change in investment purpose must be made within 10 days.

A Form 13G must be filed within 45 days after the end of the calendar year in which the Firm, employee or client acquired a greater than 5% beneficial ownership in the security. If the Firm's, employee's or client's beneficial ownership exceeds 10 percent, however, prior to the end of the calendar year, the initial Form 13G has to be filed within 10 days after the end of the first month in which the Firm's, employ's or client's beneficial ownership exceeds 10 percent, computed as of the last day of the month.

Edgar Filings Under Section 16 of the 1934 Act

Section 16 of the Securities and Exchange Act of 1934 applies to any person who is the beneficial owner, directly or indirectly, of more than ten percent of any class of equity

securities. Section 16 rules apply to any class of equity securities of an issuer whether or not registered. The rules under Section 16 also apply to non-equity securities as provided by the Public Utility Holding Company Act of 1935 and the Investment Company Act of 1940. The following filings are required:

- Form 3

In general, an advisor that exercises investment discretion or voting power over more than ten percent (10%) of a class of equity securities of a publicly traded company (and thus is a "beneficial owner" of such securities) may be required to file with the SEC an initial ownership report on Form 3 within ten days after exceeding the ten percent threshold.

- Form 4

Changes in an advisor's/beneficial owner's ownership of securities must be reported on Form 4 before the end of the second business day following the day on which the change occurred. Due to the changes in the filing timeframe for the Form 4, it is possible that a Form 4 may be due before the Form 3 is due. In these situations, the CA encourages the filer to submit both forms at the same time.

- Form 5

An annual report on Form 5 must be filed by an advisor/beneficial owner with the SEC within forty-five days after the fiscal year by every person who was an insider of a publicly traded company during the entire year to report previously unreported transactions during the year that should have been reported on Form 4 but were not, and certain other transactions that may be reported on Form 5.

Under Section 16, Forms 3, 4 and 5 must be filed electronically via EDGAR.

Conflicts of Interest and Outside Business Activities

If a conflict of interest or the appearance of a conflict arises between the interests of the Firm or its clients and the interest of the employee, the interests of the Firm and its clients will prevail. The determination as to the existence or appearance of a conflict is made by the Chief Compliance Officer in his sole discretion.

It is Firm policy that no employee may accept employment or compensation from any other person as a result of any business activity, other than a passive investment, outside the scope of his or her relationship to the Firm, unless he or she has provided prompt written notice to the Firm and receive authorization from the Chief Compliance Officer. Entertainment, Gifts and Political Contributions

The giving or receiving of gifts or other items of value to or from persons doing business or seeking to do business with the Firm could call into question the independence of its judgment as a fiduciary of its Clients. Accordingly, it is the policy of the Firm to permit such conduct only in accordance with the limitations stated herein.

The Firm's policies on gifts and entertainment are derived from industry practices. Employees should be aware that there are other federal laws and regulations that prohibit firms and their employees from giving anything of value to employees of various financial institutions in connection with attempts to obtain any business transaction with the institution, which is viewed as a form of bribery. If there is any question about the appropriateness of any particular gift, Employees should consult the Chief Compliance Officer. Under no circumstances may a gift to the Firm or any employee be received as any form of compensation for services provided by the Firm or employee.

Accepting Gifts and Entertainment

On occasion, because of an Employee's position with the Firm, the Employee may be offered, or may receive, gifts or other forms of non-cash compensation from Clients, brokers, vendors, or other persons affiliated with the Firm. Under no circumstances may a gift to the Firm or any employees be received as any form of compensation for services provided by the Firm or employee. Extraordinary or extravagant gifts are not permissible and must be declined or returned, absent approval by the Chief Compliance Officer. Gifts of a nominal value (i.e., a single or multiple gifts whose reasonable aggregate value is no more than \$500 annually from a single giver), customary business lunches, dinners, entertainment at which both the Employee and the giver are present (e.g., sporting or cultural events), and promotional items(e.g., pens, mugs) with an aggregate annual value that does not exceed \$500 may be accepted.

Giving Gifts and Providing Entertainment

Gifts to any Client, broker-dealer, vendor or other person may not be used to effect a rebate or refund of fees, to correct a trade error or to offset any amount otherwise due to the recipient. Employees may not give any gift(s) with an aggregate value in excess of \$500 per year to any person associated with a securities or financial organization, including exchanges, broker-dealers or other investment management firms, to members of the news media, or to prospective Clients. With respect to Clients, Employees may not give any gift(s) with an aggregate value in excess of \$500 per year. Employees may provide reasonable entertainment to persons associated with securities or financial organizations or Clients or prospective Clients provided that both the Employee and the recipient are present and there is a business purpose for the entertainment. In addition, many public employee benefit plans are subject to similar restrictions. Employees should never offer gifts, entertainment, or other favors for the purpose of influencing ERISA Client or prospective Client decision-making. Similarly, Employees should not accept gifts, entertainment or other favors offered by others who wish to do business with the Firm or its ERISA Clients.

Political Contributions

The SEC has stated that investment advisers who seek to influence the award by public entities of advisory contracts by making political contributions to public officials have compromised their fiduciary duty to such entities. Therefore, the Firm will not make any political contributions, whether in the U.S. or to non-U.S. officials.

Review of Employee Communications

All employee written correspondence related to the Firm's business, and in particular client correspondence is subject to review by the Chief Compliance Officer. The Firm is required to maintain records of all employee correspondence relating to clients, client accounts, client account transactions and proprietary account transactions. In addition, the Firm is required to monitor employee trading activities and compliance with the Firm's conflict of interest and insider trading policies and procedures. Consequently, it is Firm policy to randomly review and/or archive all employee communications, including email and other forms of electronic communication for compliance purposes.

Employees are admonished that unless and until the Firm has subscribed to an instant messaging archiving service, they are not permitted to communicate with clients or other third parties via instant messaging or other personal, hand held electronic messaging devices regarding any Firm business. Employees are further admonished that they may not communicate with Firm clients regarding any firm business via any personal, non-Firm email account.

The Firm has adopted an email archiving system for all email. Email is subject to review and storage by the Chief Compliance Officer regardless of its nature as personal or work related. Employees are advised that they should have no expectation of privacy regarding personal communications that are sent or received via email.

Procedures

The Firm and its employees are fiduciaries to Firm clients and investors. If a conflict or the appearance of a conflict, between the interests of the Firm or its clients and investors and

the interest of the employee arises, the employee must immediately notify the Chief Compliance Officer who will take the matter under consideration, conduct any necessary investigation into the conflict or potential conflict and make a determination of what steps are to be taken. The interests of the Firm and its clients and investors will prevail over the interests of the employee. The determination as to the existence or appearance of a conflict of interest is made by the Firm in its sole discretion.

The Chief Compliance Officer will maintain record of all conflicts and potential conflicts identified, including the ultimate resolution of the conflict and the basis therefore.

Outside Business Activities

Prompt written notice of an outside activity by an affected employee is required that includes the following information:

The giving or receiving of any gifts or entertainment to or from anyone person with value exceeding \$100 must be reported to the Chief Compliance Officer, who will maintain a log of such gifts and entertainment in the form accompanying these procedures. If an Employee receives or is offered, or wishes to provide, any such gift or entertainment, the Employee must seek the guidance of the Chief Compliance Officer to determine whether the Employee will be permitted to accept or keep, or to provide, the gift or entertainment.

In the event hard copy records stored in the Firm's offices are destroyed, the Firm has verified with each client custodian that client account records will be made available to the Firm online, for download directly from the custodian's database.

Protection of Hard Copy Records

It is the practice of the Firm to scan and keep all relevant documents in 'soft copy' form to ensure proper back up and security of information. The Firm uses a file synchronization process to the cloud based secure file system.

Essential Firm Documents

Benchmark Wealth Advisors LLC maintains a binder containing copies of the Firm's primary and essential business documents, including licenses, registrations and other corporate documentation. Additional electronic copies of these documents are maintained by Benchmark Wealth Advisors LLC.

Client Account Files

Soft copy documentation relating to each Benchmark Wealth Advisors client is maintained in an individual client account file. These account files contain new account documentation, client correspondence, client quarterly reports and other client documents. These documents are maintained on the Firm's computer network and are backed up electronically at https://fxestradercom-my.sharepoint./personal/steve_fxestrader_com/_layouts/15/onedrive.aspx. The vendor supporting this redundant file solution is Microsoft OneDrive.

The Office Administrator maintains a current contact record of the Firm's legal, accountancy, compliance and other professional advisors on the Custodian and Vendor Emergency Contact List (see below) in an offsite location. In addition, the Chief Compliance Officer keeps copies of the Firm's annual financial statement, a checkbook and a record of each of the Firm's bank accounts, including bank contact information in an offsite location.

Relocation of Operations / Temporary Facilities

To the extent possible, all Firm operations will be moved to a suitable temporary location until the Firm's offices are restored or new office space is available. In the event this temporary location is impacted by the disaster and unsuitable for the relocation, we will attempt to move Firm's operations to a location outside of the affected area.

Recovery Effort at Impacted Location

The Chief Compliance Officer will coordinate the Firm's insurance claim with respect to the Firm's impacted primary location and will coordinate the Firm's business data and property salvage recovery operations.

Resumption of Trading

Until full electronic trading capabilities are restored at the Firm's primary offices or until they are fully enabled at the temporary facility, the portfolio managers will effect client transactions by telephone from their residences.

Coordination of Communications

All disaster recovery coordination will be conducted by the Supervisor or in his absence by the Chief Compliance Officer.

Communications with Employees

In the event of a disaster, all employees are required to call into the Staff Emergency Call-In Number **951-303-1857** within one hour of a disaster. In the event a staff member does not call in within one hour of a disaster, the Office Administrator, or other person designated, will use the employee contact information to contact the employee and/or the employee's designated emergency contact.

Communications with Emergency Response Vendors

The Chief Compliance Officer is responsible for maintaining a current Government and Utility Emergency Contact list for the Firm (form accompanying these procedures). The accuracy of the contact information on the current list is verified on a quarterly basis.

Client contact will be via telephone, email, fax or mail as required by the circumstances.

Benchmark Wealth Advisors LLC's policy provides that e-mail, instant messaging, and other electronic communications are treated as written communications and that such communications must always be of a professional nature.

Our policy covers electronic communications for the firm, to or from our clients, and includes any personal e-mail communications within the firm. Personal use of the firm's e-mail and any other electronic systems is strongly discouraged. Also, all firm and client related electronic communications must be on the firm's systems, and use of personal e-mail addresses or other personal electronic communications for firm or client communications is prohibited.

ERISA

Benchmark Wealth Advisors LLC may act as an investment manager for advisory clients which are governed by the Employment Retirement Income Security Act (ERISA). As an investment manager and a fiduciary with special responsibilities under ERISA, and as a matter of policy, Benchmark Wealth Advisors LLC is responsible for acting solely in the interests of the plan participants and beneficiaries. Benchmark Wealth Advisors LLC's policy includes managing client assets consistent with the "prudent man rule," exercising proxy voting authority if not retained by a plan fiduciary, maintaining any ERISA bonding that may be required, and obtaining written investment guidelines/policy statements, as appropriate.

Background

ERISA imposes duties on investment advisers that may exceed the scope of an adviser's duties to its other clients. For example, ERISA specifically prohibits certain types of transactions with ERISA plan clients that are permissible (with appropriate disclosure) for other types of clients. Under Department of Labor guidelines, when the authority to manage plan assets has been delegated to an investment manager, the manager has the authority and responsibility to vote proxies, unless a named fiduciary has retained or designated another fiduciary with authority to vote proxies. In instances where an investment manager's client agreement is silent on proxy voting authority, the investment manager would still have proxy voting authority. (Plan document provisions supersede any contractual attempt to disclaim proxy authority. In the event, plan documents are silent and an adviser's agreement disclaims proxy voting, the responsibility for proxy voting rests with the plan fiduciary(s). In certain instances, the Internal Revenue Code may impose requirements on non-ERISA retirement accounts that may mirror ERISA requirements. In March 2006, the DOL issued new guidance for employers, including advisers, to file annual reports (LM-10) to disclose financial dealings, including gifts and entertainment, with representatives of a union subject to a \$250 de minimis. Union Officers and employees have a comparable reporting obligation (Form LM-30) to report any financial dealings with employers, including the receipt of any gifts or entertainment above the de minimis amount.

Responsibility

Stephen Vettorel, Managing Partner, has responsibility for the implementation and monitoring of our ERISA policy, practices, disclosures and recordkeeping.

Procedure

Benchmark Wealth Advisors LLC has adopted various procedures to implement the firm's policy and reviews to monitor and insure the firm's policy is observed, implemented properly and amended or updated, as appropriate, which include the following:

- On-going awareness and periodic reviews of a client's investments and portfolio for consistency with the "prudent man rule."
- A designated person or proxy committee for overseeing that any proxy voting functions is properly met and that ERISA plan client proxies are voted in the best interests of the plan participants.

- On-going awareness and periodic review of any client's written investment policy statement/guidelines so as to be current and reflect a client's objectives and guidelines.
- Maintain and renew on a periodic basis any ERISA bonding that may be required.
- Monitor for and make any annual DOL filings (from LM-10) for reporting financial dealings with union representatives.

Investment Processes

As a registered adviser, and as a fiduciary to our advisory clients, Benchmark Wealth Advisors LLC is required, and as a matter of policy, obtains background information as to each client's financial circumstances, investment objectives, investment restrictions and risk tolerance, among many other things, and provides its advisory services consistent with the client's objectives, etc. based on the information provided by each client.

Background

The U.S. Supreme Court has held that Section 206 (Prohibited Activities) of the Investment Advisers Act imposes a fiduciary duty on investment advisers by operation of law (*SEC v. Capital Gains Research Bureau, Inc.*, 1963). Also, the SEC has indicated that an adviser has a duty, among other things, to ensure that its investment advice is suitable to the client's objectives, needs and circumstances, (*SEC No-Action Letter, In re John G. Kinnard and Co.*, publicly available 11/30/1973). Every fiduciary has the duty and a responsibility to act in the utmost good faith and in the best interests of the client and to always place the client's interests first and foremost.

As part of this duty, a fiduciary and an adviser with such duties, must eliminate conflicts of interest, whether actual or potential, or make full and fair disclosure of all material facts of any conflicts so a client, or prospective client, may make an informed decision in each particular circumstance.

Responsibility

The firm's investment professionals responsible for the particular client relationship have the primary responsibility for determining and knowing each client's circumstances and managing the client's portfolio consistent with the client's objectives. Benchmark Wealth Advisors LLC's designated officer has the overall responsibility for the implementation and monitoring of our investment processes policy, practices, disclosures and recordkeeping for the firm.

Benchmark Wealth Advisors LLC has adopted procedures to implement the firm's policy and reviews to monitor and insure the firm's policy is observed, implemented properly and amended or updated, as appropriate, which include the following:

- Investment professionals may also schedule client meetings on a periodic basis, or request basis, to review a client's portfolio, performance, market conditions, financial circumstances, and investment objectives, among other things, to confirm the firm's investment decisions and services are consistent with the client's objectives and goals. Documentation of such reviews should be made in the client file.
- Client relationships and/or portfolios may be reviewed on a more formal basis on a quarterly or other periodic basis by designated supervisors or management personnel.

Performance information is treated as advertising / marketing material and designed to obtain new advisory clients and to maintain existing client relationships. Benchmark Wealth Advisors LLC's policy requires that any performance information material must be truthful and accurate, prepared and presented in a manner consistent with applicable rules and regulatory guidelines, and reviewed and approved by a designated officer. Benchmark Wealth Advisors LLC's policy prohibits any performance information or materials that may be misleading, fraudulent, deceptive and/or manipulative.

Background

An investment adviser's performance information is included as part of a firm's advertising practices which are regulated by the SEC under Section 206 of the Advisers Act, which prohibits adviser from engaging in fraudulent, deceptive, or manipulative activities. The manner in which investment advisers portray themselves and their investment returns to existing and prospective clients is highly regulated. These standards include how performance is presented. SEC Rule 206(4)-1 proscribes various advertising practices of investment advisers as fraudulent, deceptive or manipulative and various SEC no-action letters provide guidelines for performance information.

Responsibility

Stephen Vettorel, Managing Partner has the responsibility for implementing and monitoring our policy for the preparation, presentation, review and approval of any performance information to insure any materials are consistent with our policy and regulatory requirements. This designated person is also responsible for maintaining, as part of the Benchmark Wealth Advisors LLC's books and records, copies of all performance materials, including the supporting records to demonstrate the calculation of any performance information for the entire performance information period consistent with applicable recordkeeping requirements, as well as records of reviews and approvals.

Benchmark Wealth Advisors LLC has adopted procedures to implement the firm's policy and reviews to monitor and insure the firm's policy is observed, implemented properly and amended or updated, as appropriate, which include the following:

- All performance information and materials must be reviewed and approved prior to use by a designated officer, the CIO or another officer of the firm, who is familiar with applicable rules and standards for performance advertising.

Benchmark Wealth Advisors LLC has adopted the following principles governing personal investment activities by Benchmark Wealth Advisors LLC's supervised persons:

Pre-Clearance Required for Participation in IPOs

No supervised person shall acquire any beneficial ownership in any securities in an Initial Public Offering for his or her account, as defined herein, without the prior written approval of the Chief Compliance Officer who has been provided with full details of the proposed transaction (including written certification that the investment opportunity did not arise by virtue of the supervised person's activities on behalf of a client) and, if approved, will be subject to continuous monitoring for possible future conflicts of interest.

Pre-Clearance Required for Private or Limited Offerings

No supervised person shall acquire beneficial ownership of any securities in a limited offering or private placement without the prior written approval of the Chief Compliance Officer who has been provided with full details of the proposed transaction (including written certification that the investment opportunity did not arise by virtue of the supervised person's activities on behalf of a client) and, if approved, will be subject to continuous monitoring for possible future conflicts of interest.

Procedures

Pre-clearance

Given the current size of the firm, all publicly traded securities are exempt from requiring pre-clearance to transact unless they are on the Restricted Stock Trading List. Currently, firm transactions on behalf of clients have an immaterial effect on public market trading valuations. Additionally, with the exception of fixed income instruments, most firm transactions on behalf of clients are executed on a quarterly basis. Transaction notification to the Chief Compliance Officer shall be deemed sufficient adherence to policy. Any employee transactions, regardless of materiality, deemed as a potential perceived conflict of interest, shall be recorded in the firm's record keeping. At such time that the Chief Compliance Officer or the Managing Partner determines that a pre-clearance of personal transaction policy is necessary, the following process shall be implemented:

A supervised person may, directly or indirectly, acquire or dispose of beneficial ownership of a reportable security only if:

- such purchase or sale has been approved by a supervisory person designated by Benchmark Wealth Advisors LLC firm;
- the approved transaction is completed by the close of business on the second trading day after approval is received; and
- the designated supervisory person has not rescinded such approval prior to execution of the transaction. Post-approval is not permitted.

Clearance must be obtained by completing and signing the Pre-clearance Form provided for that purpose by the Chief Compliance Officer. The Chief Compliance Officer monitors all transactions by all access persons in order to ascertain any pattern of conduct which may evidence conflicts or potential conflicts of interest with the principles and objectives of this Code, including a pattern of front running. Advance trade clearance in no way waives or absolves any supervised person of the obligation to abide by the provisions, principles and objectives of this Code.

Insider Trading

Introduction

Trading securities while in possession of material, nonpublic information, or improperly communicating that information to others may expose supervised persons and Benchmark Wealth Advisors LLC to stringent penalties. Criminal sanctions may include a fine of up to \$1,000,000 and/or ten years imprisonment. The SEC can recover the profits gained or losses avoided through the illegal trading, impose a penalty of up to three times the illicit

windfall, and/or issue an order permanently barring you from the securities industry. Finally, supervised persons and Benchmark Wealth Advisors LLC may be sued by investors seeking to recover damages for insider trading violations.

The rules contained in this Code apply to securities trading and information handling by supervised persons of Benchmark Wealth Advisors LLC and their immediate family members. The law of insider trading is unsettled and continuously developing. An individual legitimately may be uncertain about the application of the rules contained in this Code in a particular circumstance. Often, a single question can avoid disciplinary action or complex legal problems. You must notify Jonathan Tunney immediately if you have any reason to believe that a violation of this Code has occurred or is about to occur.

General Policy

No supervised person may trade, either personally or on behalf of others (such as investment funds and private accounts managed by Benchmark Wealth Advisors LLC), while in the possession of material, nonpublic information, nor may any personnel of Benchmark Wealth Advisors LLC communicate material, nonpublic information to others in violation of the law.

1. What is Material Information?

Information is material where there is a substantial likelihood that a reasonable investor would consider it important in making his or her investment decisions. Generally, this includes any information the disclosure of which will have a substantial effect on the price of a company's securities. No simple test exists to determine when information is material; assessments of materiality involve a highly fact-specific inquiry. For this reason, you should direct any questions about whether information is material to Stephen Vettorel. Material information often relates to a company's results and operations, including, for example, dividend changes, earnings results, changes in previously released earnings estimates, significant merger or acquisition proposals or agreements, major litigation, liquidation problems, and extraordinary management developments. Material information also may relate to the market for a company's securities. Information about a significant order to purchase or sell securities may, in some contexts, be material. Pre-publication information regarding reports in the financial press also may be material. For example, the United States Supreme Court upheld the criminal convictions of insider trading defendants who capitalized on prepublication information about The Wall Street Journal's "Heard on the Street" column. You should also be aware of the SEC's position that the term "material nonpublic information" relates not only to issuers but also to Benchmark Wealth Advisors LLC's securities recommendations and client securities holdings and transactions.

2. What is Nonpublic Information?

Information is "public" when it has been disseminated broadly to investors in the marketplace. For example, information is public after it has become available to the general public through a public filing with the SEC or some other government agency, the Dow Jones "tape" or The Wall Street Journal or some other publication of general circulation, and after sufficient time has passed so that the information has been disseminated widely.

3. Identifying Inside Information

Before executing any trade for yourself or others, including investment funds or private accounts managed by Benchmark Wealth Advisors LLC ("Client Accounts"), you must determine

whether you have access to material, nonpublic information. If you think that you might have access to material, nonpublic information, you should take the following steps:

- a. Report the information and proposed trade immediately to Stephen Vettorel.
- b. Do not purchase or sell the securities on behalf of yourself or others, including investment funds or private accounts managed by the firm.
- c. Do not communicate the information inside or outside the firm, other than to Stephen Vettorel.
- d. After Stephen Vettorel has reviewed the issue, the firm will determine whether the information is material and nonpublic and, if so, what action the firm will take. You should consult with Jonathan Tunney before taking any action. This degree of caution will protect you, our clients, and the firm.

4. Contacts with Public Companies

Contacts with public companies may represent an important part of our research efforts. The firm may make investment decisions on the basis of conclusions formed through such contacts and analysis of publicly available information. Difficult legal issues arise, however, when, in the course of these contacts, a supervised person of Benchmark Wealth Advisors LLC or other person subject to this Code becomes aware of material, nonpublic information. This could happen, for example, if a company's Chief Financial Officer prematurely discloses quarterly results to an analyst, or an investor relations representative makes selective disclosure of adverse news to a handful of investors. In such situations, Benchmark Wealth Advisors LLC must make a judgment as to its further conduct. To protect yourself, your clients and the firm, you should contact Stephen Vettorel immediately if you believe that you may have received material, nonpublic information.

5. Tender Offers

Tender offers represent a particular concern in the law of insider trading for two reasons: First, tender offer activity often produces extraordinary gyrations in the price of the target company's securities. Trading during this time period is more likely to attract regulatory attention (and produces a disproportionate percentage of insider trading cases). Second, the SEC has adopted a rule which expressly forbids trading and "tipping" while in the possession of material, nonpublic information regarding a tender offer received from the tender offer or, the target company or anyone acting on behalf of either. Supervised persons of Benchmark Wealth Advisors LLC and others subject to this Code should exercise extreme caution any time they become aware of nonpublic information relating to a tender offer.

6. Restricted/Watch Lists

Although Benchmark Wealth Advisors LLC does not typically receive confidential information from portfolio companies, it may, if it receives such information take appropriate procedures to establish restricted or watch lists in certain securities. Stephen Vettorel may place certain securities on a "restricted list." Supervised persons are prohibited from personally, or on behalf of an advisory account, purchasing or selling securities during any period they are listed. Securities issued by companies about which a number of supervised persons are expected to regularly have material, nonpublic information should generally be placed on the restricted list. Stephen Vettorel shall take steps to immediately inform all supervised persons of the securities listed on the restricted list. Stephen Vettorel may place certain

securities on a "watch list." Securities issued by companies about which a limited number of supervised persons possess material, nonpublic information should generally be placed on the watch list. The list will be disclosed only to Jonathan Tunney and a limited number of other persons who are deemed necessary recipients of the list because of their roles in compliance.

Transactions & Records

Benchmark Wealth Advisors LLC's policy allows employees to maintain personal securities accounts provided any personal investing by an employee in any accounts in which the employee has a beneficial interest, including any accounts for any immediate family or household members, is consistent with Benchmark Wealth Advisors LLC's fiduciary duty to its clients and consistent with regulatory requirements. Each employee must identify any personal investment accounts and report all reportable transactions and investment activity on at least a quarterly basis to the firm's Compliance Officer, or other designated officer.

Background

Generally, state books and records requirements require advisers to identify "advisory representatives," the reporting of personal securities transactions on a quarterly basis and the maintenance of records of personal securities transactions. For SEC advisers, the Advisers Act has different and more stringent requirements and, the SEC adopted a new rule (Rule 204 A-1 NOTE: compliance date 2/1/2005), similar to Rule 17j-1 under the Investment Company Act, requiring SEC advisers to adopt a code of ethics that would require, among other things, setting ethical standards and compliance with the securities laws, safeguarding material nonpublic information about clients' transactions and portfolio holdings, initial and annual reports of securities holdings for access persons, and Form ADV Part II summary disclosure about the adviser's code of ethics. An investment adviser's policies and procedures covering the personal investments of employees and others represents an internal control and supervisory review to detect and prevent possible insider trading, conflicts of interests and possible regulatory violations.

Responsibility

The Chief Compliance Officer has the responsibility for the implementation and monitoring of our policy on personal securities transactions and activities, practices, disclosures and recordkeeping.

Procedure

Benchmark Wealth Advisors LLC has adopted procedures to implement the firm's policy on personal securities transactions and reviews to monitor and insure the firm's policy is observed, implemented properly and amended or updated, as appropriate, which include the following:

- The Chief Compliance Officer maintains a list of the firm's advisory representatives which is updated periodically.
- Employees are to identify any personal investment accounts and any accounts in which the employee has a beneficial interest, including any accounts for the immediate family and household members, upon hire, annually thereafter and upon opening or closing any account(s).
- Employees must report all required information for covered personal securities transactions on a quarterly basis within 10 days of the end of each calendar quarter to the Compliance Officer or other designated officer. (Note: See Regulatory Reference section for guides to state requirements.)
- The Chief Compliance Officer, or his designee, maintains appropriate records of the firm's advisory representatives, and reports of personal securities transactions, among other things.

- The Chief Compliance Officer will review all employees' reports of personal securities transactions for compliance with the firm's policies, including the Insider Trading Policy, regulatory requirements and the firm's fiduciary duty to its clients, among other things.
- Employees are required to arrange for their personal and related accounts to be sent by their brokerage firm/custodians to the Chief Compliance Officer, or other designated officer.

Privacy

As a registered investment adviser, Benchmark Wealth Advisors LLC must comply with SEC Regulation S-P (or other applicable regulations), which requires registered advisers to adopt policies and procedures to protect the “nonpublic personal information” of natural person consumers and customers and to disclose to such persons policies and procedures for protecting that information. Nonpublic personal information includes nonpublic “personally identifiable financial information” plus any list, description or grouping of customers that is derived from nonpublic personally identifiable financial information. Such information may include personal financial and account information, information relating to services performed for or transactions entered into on behalf of clients, advice provided by Benchmark Wealth Advisors LLC to clients, and data or analyses derived from such nonpublic personal information. Benchmark Wealth Advisors LLC must also comply with the California Financial Information Privacy Act (SB1) if the firm does business with California consumers.

Our firm maintains written policies and procedures as to the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about our firm's proxy policies and practices. Our policy and practice includes the responsibility to monitor corporate actions, receive and vote client proxies and disclose any potential conflicts of interest as well as making information available to clients about the voting of proxies for their portfolio securities and maintaining relevant and required records.

Background

- In the absence of specific voting guidelines from the client, Benchmark Wealth Advisors LLC will vote proxies in the best interests of each particular client. Benchmark Wealth Advisors LLC's policy is to vote all proxies from a specific issuer the same way for each client absent qualifying restrictions from a client. Clients are permitted to place reasonable restrictions on Benchmark Wealth Advisors LLC's voting authority in the same manner that they may place such restrictions on the actual selection of account securities.
- As a general policy, Benchmark Wealth Advisors LLC believes that the management of each

of the invested companies makes proxy voting recommendations that are in the best interest for the company and its shareholders. Any vote cast inconsistent with management recommendations will be specifically documented.

Conflicts of Interest

Benchmark Wealth Advisors LLC will identify any conflicts that exist between the interests of the adviser and the client by reviewing the relationship of Benchmark Wealth Advisors LLC with the issuer of each security to determine if Benchmark Wealth Advisors LLC or any of its employees has any financial, business or personal relationship with the issuer.

- If a material conflict of interest exists, Stephen Vettorel will determine whether it is

appropriate to disclose the conflict to the affected clients, to give the clients an opportunity to vote the proxies themselves, or to address the voting issue through other objective means such as voting in a manner consistent with a predetermined voting policy or receiving an independent third party voting recommendation.

Benchmark Wealth Advisors LLC will maintain a record of the voting resolution of any conflict of interest.

Soft Dollars

Benchmark Wealth Advisors LLC, as a matter of policy and practice, does not have any formal or informal arrangements or commitments to utilize research, research-related products and other services obtained from broker-dealers, or third parties, on a soft dollar commission basis.

Background

Soft dollars generally refers to arrangements whereby a discretionary investment adviser is allowed to pay for and receive research, research-related or execution services from a broker-dealer or third-party provider, in addition to the execution of transactions, in exchange for the brokerage commissions from transactions for client accounts.

Section 28(e) of the Securities Exchange Act of 1934 allows and provides a safe harbor for discretionary investment advisers to pay an increased commission, above what another broker-dealer would charge for executing a transaction, for research and brokerage services, provided the adviser has made a good faith determination that the value of the research and brokerage services qualifies as reasonable in relation to the amount of commissions paid. Further, under SEC guidelines, the determination as to whether a product or service is research or other brokerage services, and eligible for the Section 28(e) safe harbor, is whether it provides lawful and appropriate assistance to the investment manager in performance of its investment decision-making responsibilities.

Responsibility

Benchmark Wealth Advisors LLC, has the responsibility for the implementation and monitoring of our soft dollar policy that the firm does not utilize any research, research-related products and other services obtained from broker-dealers, or third parties, on a soft dollar commission basis.

Procedure

Benchmark Wealth Advisors LLC has adopted various procedures to implement the firm's policy and reviews to monitor and insure the firm's policy is observed, implemented properly and amended or updated, as appropriate, which include the following:

- Benchmark Wealth Advisors LLC's policy of prohibiting utilizing any research, and research-related products or services has been communicated to relevant individuals including management, traders and portfolio managers, among others.
- The firm's policy is appropriately disclosed in the firm's Form ADV Part II/Disclosure Document.
- Jonathan Tunney, CFA, and Albert Gutierrez, CFA, periodically monitor the firm's business relationships and advisory services to insure no research services or products are being obtained on a soft dollar basis.
- In the event of any change in the firm's policy, any such change must be approved by management, and any soft dollar arrangements would only be allowed after appropriate reviews and approvals, disclosures, meeting regulatory requirements and maintaining proper records.

Standards of Business Conduct

Benchmark Wealth Advisors LLC places the highest priority on maintaining its reputation for integrity and professionalism. That reputation is a vital business asset. The confidence and trust placed in our firm and its employees by our clients is something we value and endeavor to protect. The following Standards of Business Conduct sets forth policies and procedures to achieve these goals. This Code is intended to comply with the various provisions of the Advisers Act and also requires that all supervised persons comply with the various applicable provisions of the Investment Company Act of 1940, as amended, the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and applicable rules and regulations adopted by the SEC.

Section 204A of the Advisers Act requires the establishment and enforcement of policies and procedures reasonably designed to prevent the misuse of material, nonpublic information by investment advisers. Such policies and procedures are contained in this Code. The Code also contains policies and procedures with respect to personal securities transactions of all Benchmark Wealth Advisors LLC's supervised persons as defined herein. These procedures cover transactions in a reportable security in which a supervised person has a beneficial interest in or accounts over which the supervised person exercises control as well as transactions by members of the supervised person's immediate family.

Section 206 of the Advisers Act makes it unlawful for Benchmark Wealth Advisors LLC or its agents or employees to employ any device, scheme or artifice to defraud any client or prospective client, or to engage in fraudulent, deceptive or manipulative practices. This Code contains provisions that prohibit these and other enumerated activities and that are reasonably designed to detect and prevent violations of the Code, the Advisers Act and rules thereunder.

Benchmark Wealth Advisors LLC also adheres to the principles set forth in the CFA *Institute's Asset Manager Code of Professional Conduct* which can be found at the Institute's [website](#).

Supervision & Internal Controls

Benchmark Wealth Advisors LLC has adopted these written policies and procedures which are designed to set standards and internal controls for the firm, its employees, and its businesses and are also reasonably designed to detect and prevent any violations of regulatory requirements and the firm's policies and procedures. Every employee and manager is required to be responsible for and monitor those individuals and departments he or she supervises to detect, prevent and report any activities inconsistent with the firm's procedures, policies, high professional standards, or legal/regulatory requirements.

Background

The SEC adopted the anti-fraud rule titled Compliance Procedures and Practices (Rule 206(4)-7) under the Advisers Act requiring more formal compliance programs for all SEC registered advisers. The rule became effective 2/5/2004 and SEC advisers had until 10/5/2004 (compliance date) to be in compliance with the rule. Rule 206(4)-7 makes it unlawful for a SEC adviser to provide investment advice to clients unless the adviser:

- adopts and implements written policies and procedures reasonably designed to prevent violations by the firm and its supervised persons;
- reviews, at least annually, the adequacy and effectiveness of the policies and procedures;
- designates a chief compliance officer who is responsible for administering the policies and procedures; and
- maintains records of the policies and procedures and annual reviews.

Under Section 203(e)(6), the SEC is authorized to take action against an adviser or any associated person who has failed to supervise reasonably in an effort designed to prevent violations of the securities laws, rules and regulations. This section also provides that no person will be deemed to have failed to supervise reasonably provided:

- there are established procedures and a system which would reasonably be expected to prevent any violations;
- and such person has reasonably discharged his duties and obligations under the firm's procedures and system without reasonable cause to believe that the procedures and system were not being complied with.

Every employee has a responsibility for knowing and following the firm's policies and procedures. Every person in a supervisory role is also responsible for those individuals under his/her supervision. The President, or a similarly designated officer, has overall supervisory responsibility for the firm. The Chief Compliance Officer has the overall responsibility for monitoring and testing compliance with Benchmark Wealth Advisors LLC's policies and procedures. Possible violations of these policies or procedures will be documented and reported to the appropriate department manager for remedial action. Trading

As an adviser and a fiduciary to our clients, our clients' interests must always be placed first and foremost, and our trading practices and procedures prohibit unfair trading practices and seek to disclose and avoid any actual or potential conflicts of interests or resolve such conflicts in the client's favor.

Our firm has adopted the following policies and practices to meet the firm's fiduciary responsibilities and to insure our trading practices are fair to all clients and that no client or account is advantaged or disadvantaged over any other.

Also, Benchmark Wealth Advisors LLC's trading practices are generally disclosed in our Form ADV Part 2 Brochure provided to prospective and existing clients.

Background

As a fiduciary, many conflicts of interest may arise in the trading activities on behalf of our clients, our firm and our employees, and must be disclosed and resolved in the interests of the clients. In addition, securities laws, insider trading prohibitions and the Advisers Act, and rules there under, prohibit certain types of trading activities.

Aggregation

The aggregation or blocking of client transactions allows an adviser to execute transactions in a more timely, equitable, and efficient manner and seeks to reduce overall commission charges to clients. Our firm's policy is to aggregate client transactions where possible and when advantageous to clients. In these instances clients participating in any aggregated transactions will receive an average share price and transaction costs will be shared equally and on a pro-rata basis. This provision is also employed for transactions involving employees or principals ("proprietary accounts") that are aggregated with client transactions.

Allocation

As a matter of policy, an adviser's allocation procedures must be fair and equitable to all clients with no particular group or client(s) being favored or disfavored over any other clients. Benchmark Wealth Advisors LLC's policy prohibits any allocation of trades in a manner that Benchmark Wealth Advisors LLC's proprietary accounts, affiliated accounts, or any particular client(s) or group of clients receive more favorable treatment than other client accounts. Benchmark Wealth Advisors LLC has adopted a clear written policy for the fair and equitable allocation of transactions, (e.g., pro-rata allocation, rotational allocation, or other means) which is disclosed in Benchmark Wealth Advisors LLC's Disclosure Document.

IPO's

Initial public offerings ("IPOs") or new issues are offerings of securities which frequently are of limited size and limited availability. These offerings may trade at a premium above the initial offering price. In the event Benchmark Wealth Advisors LLC participates in any new issues, Benchmark Wealth Advisors LLC's policy and practice is to allocate new issues shares fairly and equitably among our advisory clients according to a specific and consistent basis so as not

to advantage any firm, personal or related account and so as not to favor or disfavor any client, or group of clients, over any other.

Trade Errors

As a fiduciary, Benchmark Wealth Advisors LLC has the responsibility to effect orders correctly, promptly and in the best interests of our clients. In the event any error occurs in the handling of any client transactions, due to Benchmark Wealth Advisors LLC's actions, or inaction, or actions of others, Benchmark Wealth Advisors LLC's policy is to seek to identify and correct any errors as promptly as possible without disadvantaging the client or benefiting Benchmark Wealth Advisors LLC in any way.

If the error is the responsibility of Benchmark Wealth Advisors LLC, any client transaction will be corrected and Benchmark Wealth Advisors LLC will be responsible for any client loss resulting from an inaccurate or erroneous order. Benchmark Wealth Advisors LLC's policy and practice is to monitor and reconcile all trading activity, identify and resolve any trade errors promptly, document each trade error with appropriate supervisory approval and maintain a trade error file.

Background

As a fiduciary, our firm must always place our client's interests first and foremost and this includes pricing processes, which insure fair, accurate and current valuations of client securities of whatever nature. Proper valuations are necessary for accurate performance calculations and fee billing purposes, among others. Because of the many possible investments, various pricing services and sources and diverse characteristics of many investment vehicles, independent sources, periodic reviews and testing, exception reporting, and approvals and documentation or pricing changes are necessary with appropriate summary disclosures as to the firm's pricing policy and practices. Independent custodians of client accounts may serve as the primary pricing source.
